In addition to offering a variety of flea market and craft market goods to our 2500+ attendees, as an agricultural community, we take great pride in offering farmers' market goods vendors reduced pricings. Please help us continue our efforts to expand our local produce offerings by inviting your farming neighbors and local farm goods vendors to participate.

NOTE: The Greenview Civic Improvement Association members will be wearing RED at the park the day of the event to assist you with the flea market logistics. Thank you in advance for your participation in our celebration!
